

29th March 2021

The Hi-Tec Oils Bathurst 6 hour is aware of the potential impact the Brisbane lockdown may have on teams and competitors entered for the event.

We are in communication with those currently located in areas designated a hotspot by the Queensland Government and are working through what impact it may have on their participation, as well as monitoring any New South Wales Government restrictions in place for visitors from that area.

Our planning for the event continues and at this stage there are no changes to our plans for on-track action to commence on Friday.
